

Magic Years Nursery School
196 Elm Street
Braintree, MA 02184

Our Purpose

Magic Years Nursery School has been created to provide a wholesome atmosphere for pre-school children where they can develop to their potential socially, creatively, emotionally and educationally. Each child is able to pursue a variety of creative experiences independently or in groups according to his/her own interests and maturity.

Our Philosophy

We respect each child as a person with an innate desire to learn. We encourage children to develop good feelings about themselves and other people. Children learn best and remember longest that which involves them actively, especially when the activity is an extension of themselves.

Our Program

The program is set up according to the way play relates to a child's development and consists of the following major groups.

Exercise: Physical activity exercises the large muscles and helps children achieve control of their body and spatial awareness. Physical success gives them confidence which carries over into other non-physical activities.

Fantasy and Dramatic Play: This is included in housekeeping toys, dolls, animals, blocks and transportation toys. Through these objects, our children try out various roles and imitate life as they have experienced it. They gain a better understanding of themselves and the world around them.

Creative Play: Art materials of all kinds involve children in the immensely rewarding creative process and give them an opportunity to exercise their imagination and express originality.

Cognitive Play: Construction toys, matching and shape sorting games develop manipulative and cognitive skills to read and to count.
